**NEW**

EFFECTIVE OCTOBER 6, 2014

## Endless Propeller Solutions Grows Again

New Propellers and New Information Make It Simpler Than Ever to Pick The Right Propeller

Yamaha combined its vast propeller resources and propeller models to bring you Endless Propeller Solutions. Our goal was, and still is, to offer a propeller solution to meet the performance need of every Yamaha outboard, regardless of application.

A big part of Endless Propeller Solutions revolves around propeller development, to be sure. There's also a very important educational element aimed at making selecting propellers less intimidating and simpler. Yamaha is proud to announce key advances on both fronts. More detailed information to follow.

### ALL NEW

**TALON™ SS SDS™** – Combines quiet, clunk-free shifting and super-smooth in-gear operation with high-performance and good looks in a stainless steel SDS propeller. Fits mid-range horsepower outboards (F70-F115, T50/T60) and does not require any special hardware to operate.

### ENHANCEMENTS & IMPROVEMENTS

**SALTWATER SERIES XL® SDS** – Receives an updated Shift Dampener System for F350 outboards. Same great performance with quiet operation, but no special hardware required to make it operate. Just bolt it on and enjoy!

**PERFORMANCE 3** – New 10” and 11” pitch, three-blade propellers for stronger acceleration and better performance on F30-F60 applications.

**PERFORMANCE 4** – New 14” and 16” pitch, four-blade propellers for improved hole shot and grip on a wider array of F70-F115 and T50/T60 outboard applications.

**PERFORMANCE XT™** – New 17”, 19”, 21”, and 22” pitches help meet the performance needs of modern triple log pontoons and other craft using F150-F300 power.

**RELIANCE® SDS** – New 13” pitch in right-hand rotation and 14” pitch in right- and left-hand rotation add even more versatility to this very popular propeller.

## PROPELLER INFORMATION UPDATES

Yamaha's Endless Propeller Solutions also makes continual and important changes to its informational materials, all aimed at making propeller selection simpler and easier. The goal? To enhance Yamaha's ability to meet the performance needs of their customers, giving them the beyond-satisfactory ownership experience that is the hallmark of Yamaha Outboards.

With the latest additions and changes in product, Yamaha has eliminated duplicity in its propeller lineup and therefore has updated its Endless Propeller Solutions Applications Guide – a simple guide showing which propeller families belong to which boat categories, and which are most popular within each category. Now, Yamaha dealers and consumers are even better equipped to choose the right propeller, every time.

## Endless Propeller Solutions by Yamaha Marine

### LARGE BOATS

#### Applications

- Express Cruisers
- Large Center Console (CC) Open
- Walkarounds
- Approx. 10,000 lb & up

#### Solutions

##### Most Popular

- Saltwater Series II™ - SDS™\*
- Saltwater Series XL® 3-blade - SDS™\* (F350)

##### Select Applications

- Saltwater Series XL4™ - SDS™\* (F350)
- Saltwater Series XL4™-HP - SDS™\* (F350)
- Saltwater Series HS4™ - SDS™\*

\*SDS™ = Yamaha's patent-pending Shift Dampener System

### MEDIUM / SMALL BOATS

#### Applications

- Small Twins
- Deep V Hulls
- Tiller Handles / Jon Boats
- Dinghies

#### Solutions

##### Most Popular

- Reliance® Series - SDS™\*
- Talon™ SS - SDS™
- Aluminum

##### Select Applications

- Pontoon Performance
- Painted Stainless Steel

### FAMILY AND WATERSPORTS

#### Applications

- Deck Boats
- Pontoons
- Fish & Ski

#### Solutions

##### Most Popular

- Reliance® Series - SDS™\*
- Pontoon Performance
- Aluminum / Dual Thrust™

##### Select Applications

- Performance 3
- Saltwater Series II™ - SDS™\*
- Painted Stainless Steel

### BASS / BAY / FLATS BOATS

#### Applications

- Bass Boats
- Bay Boats
- Flats Boats

#### Solutions

##### Most Popular

- V MAX SHO® (ventless)

##### Select Applications

- Pro
- Performance XT™
- Performance 4
